## **RECOMMENDATION**

## **DISCUSSION**

In 1997 Assembly Bill 1193 allocated funds to the California Department of Social Services (CDSS) to conduct local Kinship Support Services Programs (KSSP). These funds support community-based services to relative caregivers and the court dependent children placed in their homes and to relative caregivers of children who were at risk of court dependency or delinquency. The overall goals of KSSP are to:

- Establish a family support program that provides support services to relatives who provide homes for abused and neglected children/teens who would otherwise enter foster homes or who are at risk of dependency or delinquency.
- Ensure that children/teens maintain family ties.
- Increase a relative caregiver's capacity to obtain and maintain employment by providing supportive services, when appropriate.
- Improve outcomes of children/teens in the homes of their relatives.
- Provide services to children/teens and their relative caregivers to achieve stability, safety and permanency.

Required support services include intervention assistance aimed at maintaining the kinship family unit, transportation for medical care, education and recreational activities, referral services, counseling, tutoring/mentoring for children and teens, and collecting and reporting KSSP data to CDSS. Also included are post permanency services to relative caregivers who became the legal guardian or adoptive parent of formerly dependent children.

The County has been contracting with Seneca Family of Agencies (Seneca), previously Kinship Center, to provide services since FY 2006-2007 based on a KSSP grant from CDSS. Seneca, a non-profit corporation, began providing services in 1985 and is a leading innovator in the field of community-based and family-focused treatment services for children and families that is dedicated to being a "system of care" agency that meets the multiple needs of children and families. Services provided range from home-like residential treatment, to in-home wraparound services, to public school-based mental health services. Seneca credits its success on the agency's commitment to five core service principles:

- Unconditional Care
- Parent-Driven, Strength-Based Service Planning

- Individualized Care
- Cultural Competence
- Interagency Collaboration

Specifically, the County partners with Seneca to connect children to safe, permanent relative caregivers that will support the child or youth for life. This objective is achieved through the Family Ties program which is offered at the Kinship Center in Northern San Luis Obispo County (Templeton). Most of the children served in this program have significant physical, emotional or developmental challenges, or suffer from past trauma. The Family Ties program offers specific hands-on support and education to relative caregivers to deal with the day-to-day needs of these children and youth. With the support of Family Ties staff, relative caregivers are able to manage family transitions and access essential community resources. Seneca collaborates with the County Department of Social Services (DSS) to assist families that have illustrated a desire for support and services that will result in a reduction in foster care re-entry rates by establishing stronger family ties and supports. For more information about services offered by Seneca Family of Agencies, including kinship services, you may visit their website at <http://www.senecacenter.org>.

If approved, Seneca through the Templeton-based Kinship Center will continue to provide the Family Ties program county-wide that offers community-based and family-focused services. The program provides monetary and emotional supports to local relative caregivers and the children placed in their home. Local services include parent support groups; parent education; home visits; children's activity groups during support groups and education workshops, while also linking the social worker and other agency staff involved in the family case. The goals of all these services are to support children in relative placements by building the capacity of relative caregivers to meet their health, financial, social, emotional, and child rearing challenges.

The Family Ties program achieves the outcomes of Assembly Bill 636 (AB 636), the Child Welfare System Improvement and Accountability Act (better known as the System Improvement Plan or SIP), which focuses on continuous improvement, interagency partnerships, community involvement and public reporting outcomes. These services support the Department and County goal of ensuring all people in the community enjoy healthy, successful and productive lives, and have access to the basic necessities.

#### **OTHER AGENCY INVOLVEMENT/IMPACT**

The County has worked directly with Seneca to assess DSS and community needs and County Counsel has reviewed and approved the contract as to legal form and effect.

#### **FINANCIAL CONSIDERATIONS**

The total cost of the contract for FY 2016-17 is \$240,838 for the term of the contract. Seneca services are funded by State Realignment 2011 funds. The cost of this contract is included in the Department's adopted budget for FY 16-17 and will require no additional General Fund contribution.
